Newsweek 12/5/66, 25, #2 "Books & Journals of left and right" false, esp. Ime. "FORTUNE HUNTERS" - Manchester $2,750,000 26#3 "No leftist pamphleteer but LIFE" All earlier "leftist pamphleteers"? I first said what Newsweek says "single bullet" in 2/65, but 12/66, & but in LIFE 6/3 - "IMPACT" MADE9 assumption all 16 injuries by one bullet only & no fragments caused any of his injuries In arguing against LIFE & Connally, NW ignore Zap film. Only split second after 234 when Dept & FBI agree Kis position made hit possible.

In arguing "delayed reaction", NW ignores contrary medical testimony (Gross) 2C, #1 Connally cannot have it both ways, as NW would have it if it knew what it was talking about. And how humanly does it hit, & think what it calls us - "Lane" - "scavengers" & fights to maintain Manchester Lock & main others on the other side?

2 & #3 Those who are "pro-Commission" are "experts" but anti-Commission are "clamorous" "scavengers" - what kind of writing is this? Col 2, last 2 sentences, #1, read & compare as "mild" factual error by Boswell. If THIS is error, why trust rest? Point out what changes were made in Autopsy to make it "sustain the one-bullet re-assess in Theory" - Weight not twice points.

Part #2 Hoover does not "rebut" - he does not even mention. Both of his reports to the Com, 12/9, 1/13 do not account for front neck wound or miss evidence of a conspiracy"

1) Shooting could not be duplicated by Ford. Myers never off in mid time of 5 seconds

2) Single bullet theory disputed by misrepresented testimony & evidence

3) Evidence of frame up a) re life b) bullet fits c) Alt-Lone Leaky fix

Com must in Last par rules against #. Can we be satisfied with this?

Lengthy quote on Connally to express dis-
belief that Connally was unaware of
some wounds - did he just read the test.
